Vermont Maple Syrup

Vermont produces more maple syrup than any other state in the U.S. with approximately 890,000 gallons produced in 2010. Maple syrup is 100% natural and, by Vermont law, can't have anything added to it. Pure maple syrup provides the nutritional value of calcium, healthy minerals and antioxidants and can be used in recipes in place of white sugar. For information about how maple syrup is produced and for delicious maple recipes, visit www.vermontmaple.org.

While in Vermont you can visit sugarhouses open to the public and can visit demonstration sugarhouses at:

Orleans County Fair
3rd week of August
www.OrleansCountyFair.org

Caledonia County Fair
4th week of August
www.CaledoniaCountyFair.org

The enclosed list of sugarmakers located in Vermont's Northeast Kingdom includes whether they are open year round to sell maple syrup and if they sell maple products by mail. It's best to call ahead before stopping by.
