Topic	Discussion	Action
Food Distribution System	<ul style="list-style-type: none"> <li>Ann gave an update on the Farm to Plate Food Cycle Coalition meeting. She attended the field trip to the NW Family Foods Community Food Shelf in St. Albans; guided by Robert Ostermeyer from Champlain Valley Office of Economic Opportunity (CVOEO). Their biggest challenge is staffing. They are seeing most of the same people as in the past, but people seem to be coming more often – may be a reflection of making the facility more user-friendly. Jason Maring, COO at the VT Foodbank also spoke of the challenges of distributing fresh food in a timely manner. Other issues: rural nature of the state making distribution harder; cost of food – it is cheaper to buy from large farms in Quebec.</li> </ul>

Funding opportunities	<ul style="list-style-type: none"> <li>• Alison reported there are 4 potential funding opportunities: Rural Enterprise grants; Community Facilities grant; Working Lands Enterprise; Community Food Grant.</li> <li>• All agreed we are still in the planning phase and would benefit from a consultant to identify gaps and opportunities, resources needed, and potential revenue streams.</li> </ul>	<ul style="list-style-type: none"> <li>• Alison will draft a brief description of what we would like to focus on.</li> <li>• Alison will arrange a meeting/call with Ben Doyle from USDA – all are invited to attend once Alison has a date and time.</li> <li>• Alison will contact Teresa Snow at Salvation Farms (gleaning) to get her take on what has or hasn’t worked in the past.</li> </ul>
